

PST Technical Service Bulletin #2007-004

Release Date: August 31, 2007

Toll Free Number for Questions: (800) 762-6002 K-Tool International

Summary

TSB Topic:	New Tire Pressure Monitoring System Quick Reference Guide 2007 Update.
Description of Issue:	K-Tool International has announced the availability of the Tire Pressure Monitoring System (TPMS) Quick Reference Guide 2007 Update , covering all domestic and import vehicles equipped with tire pressure monitoring systems through model year 2007 not previously published. The 186 page guide provides up-to-date information on each manufacturer's TPM system including reset procedures and torque specification. This guide is intended to be an addendum guide to the original TPMS Quick Reference Guide.
Vehicles Affected:	New or updated since publication of the original Tire Pressure Monitoring System Quick Reference Guide.
Current Software Version at time of TSB release	n/a
TPMS Sensors Affected:	n/a
Summary:	The Tire Pressure Monitoring System Quick Reference Guides are comprehensive listings of today's TPM systems, reset procedures and torque specs. The 2007 Update covers domestic and import vehicles not previously covered through MY2007.
